

Introducing the New Age Data Center.

New Age Software Services is pleased to announce our entrance into the Professional Services arena to provide quality, cost-effective solutions in support of the demanding and dynamic needs of the Data Center.

Our expertise brings the market a breath of services and capabilities to meet the planning, design, and implementation needs for those looking to maximize the efficiency of their Data Centers.

**“The Data Center is the lifeblood of every corporate organization. Our objective is to strategically and tactically assist our customers with methods to maximize efficiencies, optimization and performance, ultimately adding to the bottom line” Tim O’Donohue
President New Age Software Services Corporation**

In coming weeks we will be providing more detailed information about our exciting new service offering. Of course, if you would like to contact us immediately, please contact Scott Hopkins, Vice President of Professional Services at (603) 329-9327 ext 228
